MEET PALLY

The friendly extra player in your Discord

Pally handles the awkward bits of game night: who decides, how to tease kindly, and how to call it a night.

Why it feels easy

Pally speaks, not you

Pick and trait starters stay hidden. Excuses stay private until you send them.

Fair over time

Not picked lately? Your chance goes up next round.

Playful, never mean

Preset traits keep feedback light-hearted.
